

PSM/RMP COMPLIANCE & BEST PRACTICES AUDITING

OSHA's Process Safety Management Standard and EPA's Risk Management Plan Rule both require facilities to conduct compliance audits of their prevention programs at least every three years. Learn how with RSSI's PSM/RMP Compliance & Best Practices Auditing course.

RSSI's expert instructors stay up to date on the regulators latest interpretations, auditing techniques, and areas of focus to bring you real world knowledge you can bring back to your facility. Gain hands on experience with our popular workshops and leave our program with the knowledge and tools necessary for an efficient, compliant, and productive audit of your site's PSM & RMP compliance.

Benefits

- Learn fundamentals of an efficient audit
- Insight on OSHA's auditing methods and focuses
- Practice auditing interviewing with workshops
- Leave with auditing knowledge & tools to determine your facility's PSM/RMP Compliance
