

## PROCESS SAFETY AND RISK MANAGEMENT PROGRAMS

RSSI expert instructors have real world experience in developing Process Safety and Risk Management Programs across the process industries and the globe. Our expertise extends beyond knowledge of regulatory requirements and into an in-depth understanding of subsequent clarifications and industry best practices.

Whether you have a specific role in your facility's PSM/RMP programs, or just want enhanced awareness for your professional growth, RSSI's Process Safety and Risk Management Programs course may be right for you.
